Frontend Developer (ReactJS) | Open to Relocation

Summary

Passionate and detail-oriented **Frontend Developer** with **3+ years of experience** in building scalable and interactive web applications using **ReactJS, Redux, JavaScript (ES6), HTML5, and CSS3**. Strong expertise in responsive design, performance optimization, and API integrations. Proven track record of delivering high-quality solutions in agile environments while ensuring exceptional user experience.

Technical Skills

Frontend Technologies: ReactJS, Redux, Redux Thunk, Redux Toolkit Query, JavaScript (ES6), HTML5, CSS3, SASS, Bootstrap, Tailwind CSS, Material-UI, Axios, Context API, HOC, Jest (Testing Framework).

Development Tools: Git, Git version control, Bitbucket, Visual Studio Code, JIRA, Chrome Developer Tools, Jenkins, Swagger, Postman, Figma.

Performance Optimization: Lazy loading, Code splitting, Debouncing, Webpack, Babel, npm

Cloud & Deployment: Google Cloud Platform (GCP), CI/CD Pipeline

Other Skills: API Integration, Authentication (JWT), DOM Manipulation, Responsive Design, Problem Solving, Debugging, Node.JS, VueJS, Vuex.

Professional Experience

UI Developer – TripGain / Iween, Bangalore

May 2025 – Present

- Developing and optimizing scalable travel-based B2B and B2C **web and mobile platforms** for **International and Domestic clients** using ReactJS and Redux.
- Built and maintained **10+ reusable UI components**, ensuring design consistency and efficient performance.
- Enhanced application speed through code-splitting, **lazy loading**, and optimized state management.
- Collaborated with design and backend teams for seamless **UI-API integration** and improved user workflows.
- Contributed to **feature development**, bug fixes, and performance improvements across production environments.
- Collaborated in an **Agile environment** for sprint planning, testing, and release cycles.

Tech Stack: ReactJS, Redux, JavaScript (ES6), HTML5, CSS3, Tailwind CSS, Material UI, Axios

UI Developer – Relyon Softech, Bangalore

Dec 2023 – May 2025

Projects: Saral Income Tax, Saral enAssist

- Designed and developed **responsive UI screens** for tax filing and notice management systems, improving accessibility and performance.
- Created **20+ optimized UI components** ensuring UI consistency and reducing rendering time.
- Implemented real-time **pagination, sorting, and filtering**, decreasing notice response time by **20%**.
- Integrated **RESTful APIs** with Axios and **Redux Toolkit Query**, reducing **redundant API** calls by **30%**.
- Implemented **JWT-based authentication** and **auto-logout** for secure session management.

Tech Stack: ReactJS, Redux Toolkit Query, Redux, JavaScript (ES6), HTML5, CSS3, React Router, Axios

UI Developer Intern – Quinbay, Bangalore

Jul 2022 – May 2023

- Contributed to the development of travel-based B2B and B2C platforms (Flight & Hotel booking modules).
- Integrated **REST APIs** for fetching **dynamic data** and enhanced state management with **Redux**.
- Supported **CI/CD deployment pipelines** through **Jenkins** and **GCP** environments.
- Participated in **Agile sprint meetings** for feature delivery and testing.

Tech Stack: ReactJS, Redux, JavaScript (ES6), HTML5, CSS3, Bootstrap, Jenkins, GCP

Projects

E-Commerce Platform (B2B & B2C)

- Built a **B2B marketplace for sellers** and a **B2C platform for buyers**, improving engagement and sales conversions.
- Enhanced **UI responsiveness, state management** using Redux, ensuring seamless navigation and faster load times.

Technologies: ReactJS, Redux, JavaScript (ES6), HTML5, CSS3, Bootstrap, Material-UI

Education

Sri Shakthi Institute of Engineering and Technology

B.Tech Information Technology – 8.38 CGPA

Coimbatore, Tamil Nadu

2019 – 2023
